DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with H. J. Stass on January 31, 2006.

The application has been amended as follows:

In the claim:

In the claim 17, line 10, "a first signal" has been changed to - said first signal

2. The following is an examiner's statement of reasons for allowance.

Onozawa et al(7,102,598) teach a driving circuit for a display comprising a level shift capacitor(CA) and a ramp wave generating circuit(53).

None of cited reference teach a display driving circuit comprising a capacitor connected between said first and second signal lines; and a ramp waveform generation circuit connected to an interconnection point between a first signal line supplying the first voltage and said capacitor so as to generate a ramp waveform to be applied to the capacitive load, with all other limitation in claim 1.

None of cited reference teach a display driving circuit comprising a capacitor connected between said first and second signal lines; and a ramp waveform generation circuit connected between a first signal line supplying the first voltage and a-ground so

Art Unit: 2629

as to generate a ramp waveform to be applied to the capacitive load, with all other limitation cited in claim 17.

None of cited reference teach a display driving circuit comprising first and second switching circuits connected in series between the ground and an externally supplied power supply; a capacitor having one terminal connected to a interconnection node between said first and second switching circuits; a third switching circuit connected between the ground and the other terminal of said capacitor; and a fourth switching circuit and a first resistor, connected in series between the ground and the interconnection node between said first and second switching circuits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lun-yi, Lao whose telephone number is (571) 272-7671.
